

Energy efficiency information

Trade mark	CDA	
Model identifier	CI926	
Energy efficiency class ¹⁾	B	
Energy consumption for washing, spinning and drying using the standard cotton programmes ²⁾ in kWh/complete operating cycle ²⁾	5.67	
Energy consumption for washing and spinning using the standard cotton washing programme ²⁾ in kWh/washing cycle	0.89	
Washing performance class ¹⁾	A	
Water remaining after spin for standard 60°C cotton washing cycle ²⁾ in %	53	
Maximum spin speed for standard 60°C cotton washing cycle ²⁾ in rpm	1200	
Washing capacity for standard 60°C cotton washing cycle (without drying) ²⁾ in kg	7	
Drying capacity for standard "dry cotton" drying cycle ²⁾ (kg)	4	
Water consumption for washing, spinning and drying ²⁾ in L/complete operating cycle	110	
Water consumption for washing and spinning only ²⁾ in L/complete operating cycle	42	
Washing and drying time, Programme time for complete operating cycle in min	560	
Noise during washing, spinning and drying cycles using the standard cotton programme ²⁾ in dB(A) re 1pW)	Washing	55
	Spinning	76
	Drying	58

¹⁾ Class G is the least efficient and Class A is the most efficient.

²⁾ Standard cotton programmes:

Washing: "Cotton 60°C" + "Intensive" + max. spin

Drying: "Dry" + "dry" until display "dry"
